Program Director
Lori Connors, MD

Address
Allergy Administrative Office
Division of Allergy, Main Floor
IWK Health Centre, Children's Site
5850/5980 University Avenue
Halifax, NS B3K 6R8

At Dalhousie, the overall goal of our program is to train well-rounded, broad-based specialists in pediatric clinical immunology and allergy. Our program is unique in that it provides a dynamic integrated community and hospital-based training in clinical immunology and allergy. We work closely together as colleagues. In addition, we have a strong academic and research program in clinical immunology. Trainees will develop a wide range of skills to manage common programs seen as a clinical immunologist and allergist and the ability to recognize and treat a wide variety of diseases.

Application Deadline

Please refer to the [Canadian Resident Matching Service \(CaRMS\) website](#) for fellowship match information in regards to the fellowship timeline, application deadlines and additional important dates.

More information is available on our [CaRMS page](#) or you can [contact us](#).
